*Please view my Portfolio (link at top) or visit my GitHub (<https://github.com/elyasnoui>) to see further technical projects!

EMPLOYMENT

Bright Network	Technology Internship Experience	Dec 2020 – Jan 2021
Involved in outlining the project lifecycle designing a fictitious implementation of facial recognition for a large UK bank's online banking platform. I got to experience how agile projects are concocted as well as the relation of all the moving parts involved. This helped me understand how essentials like communication between departments are handled and how scrum teams operate within sprints to improve and produce high quality software.		
Deliveroo	Food Courier	2017-2020
My key responsibility is to deliver hot food orders to customers within a tight timeframe to ensure a good level of customer service. I have had to develop excellent time management skills to ensure customers receive their orders on time and I have to be able to adapt to situations quickly as I often have to resolve complaints and unexpected customer issues.		
House of Fraser	Sales Assistant	2017
I worked in the Children's Section in the stockroom and on the shop floor. I was tasked with ensuring a good level of product availability at peak sales times, assisting customers with their purchase and overseeing stock deliveries.		
Pret a Manger	Team Member	2017
I was located in the Piccadilly branch for my one week's work experience. During this time, I had the opportunity to be involved in all aspects of the store and experienced a range of tasks including working as a cashier, prepping food and stocking the shop floor. My time here allowed me to develop my communication and team-working skills.		

ADDITIONAL INFORMATION

Duke of Edinburgh Bronze Award:	A two-night challenge of camping over in a remote forest.
Virgin London Money Mini Marathon:	Selected twice to compete for Westminster at the London mini marathon.
Football:	I enjoy playing football, I regularly play socially indoor and outdoor.
Gaming:	Enjoy playing a range of console and PC games in my spare time.
